Modelling and mechanisms of cardiovascular damage from environmental exposure

20 May 2026 (at the IMBEI in Mainz)
(Institute of Medical Biostatistics, Epidemiology and Informatics)

Part I: Perspectives from the Radiation Effects Research Foundation (RERF), Japan

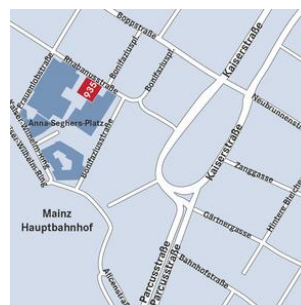

09:00- 09:45	Current projects at RERF + Discussion	Hiromi Sugiyama RERF, Japan
09:45- 10:30	Developments in statistical methods at RERF + Discussion	Hanna Lindner RERF, Japan
10:30- 10:45	Coffee break	

Part II: EXPOHEALTH

10:45- 11:15	Particulate matter and noise	Andreas Daiber JGU Mainz
11:15- 11:45	Ionizing radiation protection of the circulatory system: evidence and remaining issues	Nobuyuki Hamada, CRIEPI, Japan
11:45- 12:15	Discussion	

Prof. Dr. Daniel Wollschläger
Head of Epidemiological Methods and
Radiation Research
